

"...I would thank them all for caring about us."

A Message From the Executive Director

You have heard us say that we can't do this work without you. It isn't a cliché. **I would like to tell you what your support has done recently.** Joseph, who has been living on the streets until coming to New Day, got re-enrolled in school for the first time in a year. Maria, who has been living with us as her only parent is in prison, just got her first job ever at

Dions. Carlos, who ran away from home because he was getting abused by his father, told us he finally feels safe.

These are the stories we hear everyday. These are the reasons we - all of us at New Day - thank you from the bottom of our hearts. We thank you for your encouragement in this hard work, for your financial contributions, for the everyday items you donate, for the hours you volunteer. I don't think we can thank you enough, because it is your support that keeps youth safe, gives them access to positive adult allies, and teaches them life skills that will guide them into adulthood.

In this special edition of our newsletter you will hear stories from youth who have an important message of thanks to share with you. *Please* check them out and let yourself *feel* the difference you make. Their stories are a part of our annual "With You" campaign. **Our campaign goal is to raise \$30,000 to support our programs that make positive possible for the youth in our community.** We know that we can reach our goal, but only with you.

You can contribute to New Day in a few different ways. You can attend our holiday concert, make a financial contribution via our newsletter or by mail, and share our campaign with your friends and family.

Thank you for your continued support of all of the youth who enter the doors of New Day. Hopefully you now understand that when I say this I truly mean it - **we can't do this without you.**

Sincerely,
Steve Johnson

Meet Willow, Dathan, James, and Jasmine

These four youth represent thousands of young people who are facing the world alone. Take just one minute to view their stories and hear why they are thankful for your support.

[>>> Click here to view video <<](#)

With you, youth have a safe place to sleep, people who care about them, and a real opportunity for a better future.

Without you, our youth navigate a world where they are unsafe, fearful, and in need of adult guidance. They are without a place to call home and without a support system to rely on.

That's why you are so important.

Your continued support allows New Day to provide safety, support, and life skills to youth in our community. Help us reach our goal of raising \$30,000 by donating below.

Thank you for all you do.

The Most Wonderful Time of the Year

At the New Day we have special traditions around the holidays. The youth who reside in our Safe Home share a home-cooked Thanksgiving meal and the young adults in our Transitional

Living Program have a potluck celebration.

As gift-giving time quickly approaches we are currently accepting donations for youth. [You can take a look at our wish list here.](#) If you or your organization would like to make this time of the year wonderful for New Day youth by donating items from the wish list contact Shawna Brown at [505-260-9912](tel:505-260-9912) or via email at sbrown@ndnm.org.

4th Annual Howlin' Holiday Jam

An all-star lineup from Albuquerque and across the country will light up the Sunshine Theatre with the sounds of soul, funk, blues, and rock & roll on Friday, December 18th. You'll have no choice but dance (and definitely sing a couple of familiar tunes) thanks to a group of talented musicians who are guaranteed to pack the house. This is **not** your average holiday concert. It's a funky, rocking, and rolling good time. All proceeds benefit New Day.
